EXAMINER'S AMENDMENT

1. The application, **claim 25**, has been amended as follows:

Claim 25, line 3, delete "**the**" before "time multiplexed data".

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 4, 6-13, 16, 18-25, the prior art of record fails to teach a digital cross connect and a method comprising a master switch within a plural switching stages from which a frame clock is propagated to downstream switches and from output switches to input switches; propagation of the frame clock being matched to data distribution between the switches with the frame clock being derived from a frame of data, each switch selecting between an external frame clock input and a propagated frame clock derived from one of plural frames of data.

Regarding claims 26-31, the prior art of record fails to teach a digital cross connect and a method comprising multiple frame counters at each switch synchronized to a frame clock, each frame counter being aligned to a defined offset from the frame clock and the multiple frame counters having different alignments; and a master switch within the plural switching stages from which the frame clock is propagated to downstream switches and from output switches to input switches; propagation of the frame clock being matched to data distribution between the switches.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
